# **LEARNING HOW TO LEARN AND LEARN FAST?**

## **Efficient learning of a new language or knowledge:**

1. Clarify your learning purpose: "Why am I learning this?".
2. Gather information from popular platforms for a quick overview.
3. Practice immediately after grasping basic knowledge for better retention and understanding.
4. When facing challenges, seek solutions from various sources, online platforms, documentation, and discussions.
5. Focus on essential issues, avoid distractions, and use highlighting for crucial content.
6. Repeat practices to reinforce knowledge and neural connections.
